# Operating your phone

## Key field

## Keypad

In cases where text input is possible, you can use the keypad to input text, punctuation and special characters. To do this, press the numerical keys repeatedly.

Additional functions on the asterisk and hash keys:

| Key        | Function during text input                            | Function when held down      |
|------------|---|------------------------------|
| <b>* Δ</b> | Write special characters.                             | Deactivate the ring tone     |
| <b># ↔</b> | Switch between upper and lower case and number entry. | Activate the telephone lock. |
